

The Digital Medical Home™

Reimagining Digital Healthcare

Recuro is an integrated digital health solutions company that takes a uniquely personalized and proactive approach to virtual care. Unlike other traditional virtual care solutions today, Recuro has created a Digital Medical Home™ to enable customized care that meets patients' needs no matter their location or circumstance. It's simple: we provide the benefits, and you design a solution to fit your health care needs.

Proactive

Our market-leading health risk assessment reviews factors such as medical and family history, lifestyle, and social determinants to identify genomic and lab screenings that can guide patient care plans and inform targeted interventions.

Continuous

We've designed our platform to help patients proactively manage their care, identify any health issues early and maintain wellbeing on an ongoing basis.

Holistic

Our curated suite of digital solutions provides the tools patients need to actively manage their health no matter their location or circumstance.

Integrated

We believe in relationship-driven virtual care. Our Primary Care and Behavioral Health physicians develop a deep understanding of each patient's needs and collaborate to determine the best care plan.

Our Brand is Changing

Our Commitment & Values Are Not

We are excited to announce that WellVia was recently acquired by Recuro Health in order to expand our solution offerings and enhance our member experience. As we near key milestones in our rebrand, we want to keep you informed. In the coming weeks, the WellVia brand will retire and transition to Recuro Health. While our name is changing, our principles are not. We value our relationship with you and remain committed to helping you achieve your health goals.

We are excited to move ahead with this transition while honoring the connection our clients have to the WellVia brand and existing commitments. The potential of our combined products/services within the Digital Medical Home™ will strengthen Recuro's mission to lower costs and improve patient outcomes through our preventative care platform.

THE PROBLEM

We're facing a mental health crisis—and the status quo isn't good enough.

NOT ENOUGH PROVIDERS

73%

of the national need for mental health providers is unmet

UNSUSTAINABLE COSTS

of workplace disability claims are due to depression and anxiety

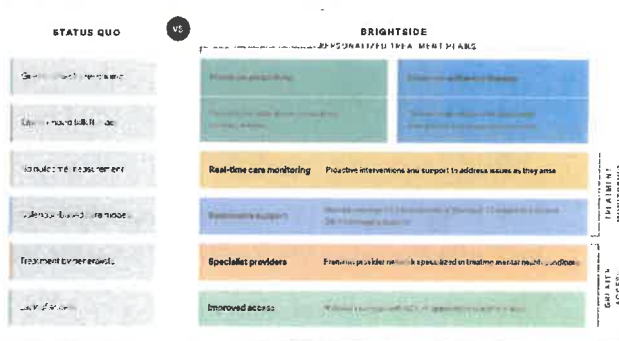

POOR QUALITY OF CARE

OUR SOLUTION

A ground-breaking, in-network, care model delivering greater access to high-quality treatment.

The right treatment for every individual.
